Author Colin Beavan began the No Impact Project in November 2006. A newly self-proclaimed environmentalist who could no longer avoid pointing the finger at himself, Colin leaves behind his liberal complacency with a vow to make as little environmental impact as possible for one year. No more automated transportation, no more electricity, no more non-local food, no more material consumption...no problem. That is, until his espresso-guzzling, retail-worshipping wife Michelle and their two-year-old daughter are dragged into the fray. (90 min.)
